

Why You Want To Advertise With Friendly Hills Property Owner Association

We can help make people find you when Googeling your type of service

Potential customers use the internet to find a service they need

85% of all consumers use the internet to find local businesses. When people want to find a business they go online and Google it ... just look at yourself, you do that too.

Advertising on the Friendly Hills website increases your hit rate with targeted local customers

To be competitive and attract customers, your business/service needs to be one of the options that shows up on the first page. Today you are likely not even on page 200. That can all change by advertising through our website: www.friendlyhillspoa.com.

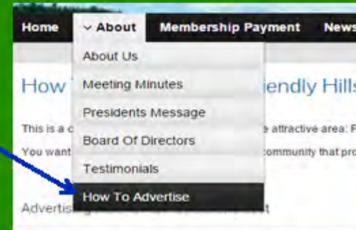

Why?

Because we are considered a active community website that serves the local community (Friendly Hills), anything we show and link to, gets great exposure through Google.

A cost effective and easy marketing tool

We have more on this here: www.friendlyhillspoa.com

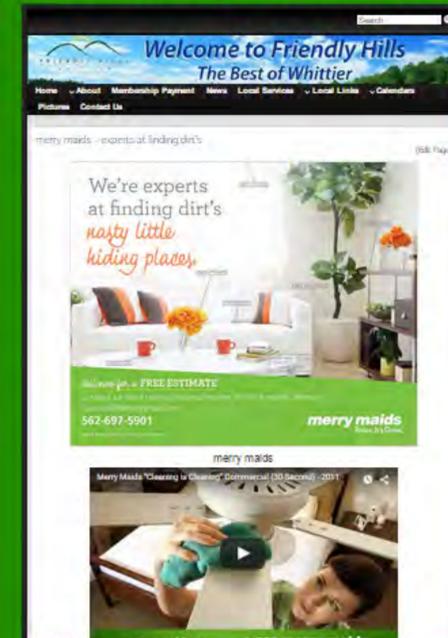

Then click here

It is set up for easy online payment

How to get started

All you need is a picture with a maximum width of 1000 pixels (3 1/3 inches) and a brief description about your business/services. It should include how to contact you and a link to your website if you have one. Links to a YouTube video can also be used.

To help you get started we have provided an example of such page at: <http://friendlyhillspoa.com/merry-maids-experts-at-finding-dirts>

If you have a website, there will be a link. No website, no worries – you will have a page with us and be found through that. It only costs \$250 a year ... less than \$21 a month.

You can also get a business card sized space and use your business card as an ad. This will only cost you \$50 a year ... less than \$4.20 a month.

The Friendly Hills Property Owner Association looks forward to working with you to help you grow your business and support our community

We are businesses friendly

Contact Webmaster Jens Welling: 562.569.3731 for technical help/information on this.

We can obviously not guarantee that you will get a first page placement on Google's search page due to factors like content, competition and Google's changing search algorithms
